Economical and Effective Update for Ampex VTRs

Merlin ME-58 Precision Digital Tape Timer

The Merlin ME-58 Tape Timer offers a conversion to digital read-out for all standard Ampex mechanical tape timers. Bright, clear LED read-out displays time in hours, minutes, seconds and frames. Counts back through zero are displayed as negative time.

The read out is automatically switched for 15 or 7½ ips operation. Remote readout and pre-settable coincidence circuits can be supplied as custom options.

The ME-58 Tape Timer is installed as a direct replacement for the original timer, as no transport modifications are required and the unit connects with two wires.

Sold on an exchange basis, the Merlin ME-58 is completely remanufactured to original specifications and carries a 1 year guarantee.

Model ME-58	Tape Timer (525 line systems)
Model ME-59	Tape Timer (625 line systems)
